THE President's order to use the simplified form of spelling will be a great relief to many printing offices where the supply of type is limited. What's the use of using six letters to spell "though" when three will do the work. "Tho" will look funny for awhile, but it will get there all right.

List of Roosevelt's Simple Spelled Words

Since President Roosevelt decided to set a new style in spelling, the Simplified Spelling Board in New York has been overwhelmed by applications for lists of the reformed words. There are 300 of these words, the use of which has been ordered by the President in his correspondence and in public documents under his control. Their adoption by the President and his staff is to be immediate. It is expected that soon he will have a large following in the country. Carnegie is one of the backers of the reform.

Maysville cures are the proof.

W. H. Paul, carpenter by trade, living at 333 East Third street, Maysville, Ky., says: "I value Doan's Kidney Pills as highly today

as I did when I first used them in 1899. I got a box and used it for a pain in my back and other evidences of a disordered condition of the kidneys which had given me much trouble for two years or more. This remedy acted promptly and I was soon cured. I did not notice any of the difficulties until some four years later, or about a year ago. I again procured Doan's Kidney Pills at J. James Wood & Son's Drugstore and all symptoms of the trouble were quickly and thoroughly removed. Since then I have not noticed any signs of trouble of any kind arising from my back or kidneys. I most cheerfully re-indorse Doan's Kidney Pills, for they are cer-tainly worthy of recommendation."
